LAW ENFORCEMENT LEARNING PLANS

Law enforcement personnel may have only a split second to prevent a crime, detain a suspect, or contain a potentially volatile situation. Critical Information Network's (CiNet™) Law Enforcement Training Network (LETN®) delivers targeted training to enable appropriate second-nature responses. Our law enforcement training not only improves learning and retention rates, it also strives to improve community relations, enhance the public's image of your department and save officers' lives.

Your return on invested training dollars is essential to the overall success of your training program. CiNet and LETN deliver performance-focused interactive online training solutions that help Law Enforcement personnel maximize safety for themselves and the citizens they are sworn to protect. LETN's training also affords Law Enforcement agencies the ability to better manage state-mandated continuing education requirements for certification, reducing the constant threat of liability litigation.

LETN's versatility enables numerous programming choices for the law enforcement community. LETN uniquely combines the talents of leading best experts from all areas of law enforcement with industry specialist groups as they advise and contribute to LETN's training curriculum.

The flexible delivery model for learning plan design, delivery, testing, tracking, reporting and communication works with any learning management system (LMS), or through the CiNow LMS. With either delivery option it is easy to:

- Install/remove course units, enroll/delete trainees and Import/export trainee records
- Establish performance requirements
- Customize curriculum with agency-specific content, develop learning modules and/or create custom tests
- Generate a variety of reports

TARGET AUDIENCES:

- Patrol Officer 1
 - Patrol Officer 2
 - Detective 1
 - Detective 2
 - Dispatch
 - Command Staff
 - Chief/Sheriff
 - Corrections
-

There are currently 8 Law Enforcement Training Network learning plans. Highlights of each are as follows:

Patrol Officer 1 Learning Plan

The 176 course Patrol Officer 1 learning plan offers early career Law Enforcement officers targeted training that enables appropriate second-nature response and a wide selection of continuing education directed at POST-mandated annual certification.

Patrol Officer 2 Learning Plan

The 82 course Patrol 2 learning plan offers the more experienced officer deeper levels of continuing education, designed to give the learner enhanced knowledge of a cross section of patrol scenarios by engaging the courseware based on best practices, lessons learned, and officer safety.

Dispatch Learning Plan

Liability and risk management begins when the 911 call comes in. LETN's expanded training library includes a 15 course curriculum for Dispatch personnel.

Detective 1 and Detective 2 Learning Plans

The Detective 1 and Detective 2 learning plans collectively offer 92 courses specifically targeted to the investigative needs of Law Enforcement personnel charged with the responsibility of crime and crime scene investigation.

Command Staff Learning Plan

The Command Staff learning plan is directed to first line supervisors engaged with the daily tasks of creating and maintaining the complex requirements of line staff assignments. The 158 course learning plan offers valuable supervisory training also designed for continuing education credit.

Chief / Sheriff Learning Plan

The 79 course Chief / Sheriff learning plan includes courseware in leadership principles, management communication, legal precedent, liability issues and mitigation, professional standards, emergency preparedness, sexual harassment, crisis management, media and public relations and many more topics.

Corrections Learning Plan

The 49 course Corrections learning plan focuses on the specific training needs of correctional officers and jail administrators.
